## THE SINGAPORE SCHOOL SYSTEM

The Singapore education system aims to bring out the best in every student, developing sound moral values and the skills necessary to meet the demands of a rapidly changing world.

Students begin their education by entering primary school at age 6, where they spend 6 years learning basic subjects including English and a mother tongue language. Except for selected subjects taught in the mother tongue, English is the language of instruction in all Singapore schools. Most students next proceed to the secondary level for 4 years of study to prepare for the Singapore-Cambridge General Certificate of Education Ordinary Level (GCE O-Level) Examination or equivalent. Those who perform well can enrol at junior colleges for 2 years of study to prepare for the Singapore-Cambridge General Certificate of Education Advanced Level (GCE A-Level) Examination or equivalent.

Apart from the formal school curriculum, students participate in Co-Curricular Activities (CCAs) which provide healthy recreation, and instil self-discipline, teamwork and confidence in them. The character development and physical growth of each child is hence provided for.

For secondary schools, the academic year consists of 4 terms of 10 weeks each, beginning on the first weekday in January and ending in mid-November. For pre-university studies, the academic year usually begins in late January/early February and ends in mid-November.
